

The Fauquier Bank

Frequently Asked Questions:

Will TFB close any branches?

We do not have plans to close any branches as there is no geographical overlap.

Will positions be eliminated as part of this transaction?

As the merging banks do not have geographical overlap, client-facing associates are certainly needed at all locations and for all lines of business.

Will my account/debit card/online banking/etc. change?

We have no plans to make any changes at this time. If changes are in order, we will communicate this information to clients with as much advanced notice as possible.

Who is Virginia National Bank (VNB)?

VNB is a community bank based in Charlottesville. Founded in 1998, they are about the same size as TFB with branches in Charlottesville and Winchester and a presence in Richmond.

Why did TFB consider merging with another bank?

Both TFB and VNB are strong, independent community banks. Together we are better positioned to successfully respond to the evolving future of the banking industry.

Thank you for banking with The Fauquier Bank!
